Introduction

This Portfolio Bulletin informs you of the release of the UNIVERGE SV9100 R13.0 and SL2100 R5.0 Main Software.

UNIVERGE SV9100 software R13.0 and SL2100 R5.0 continue to support your existing customer bases with the enhancements described below.

Support for following UNIVERGE BLUE CONNECT BRIDGE features.

Expand Emergency Numbers
UNIVERGE BLUE CONNECT BRIDGE now supports up to 20 Emergency Service numbers.
Calls to Emergency Service numbers are recognised without the need for the user to dial any trunk access code.

CONNECT BRIDGE as a Hub
Use CONNECT BRIDGE to build a network of SV9100 and SL2100 systems.
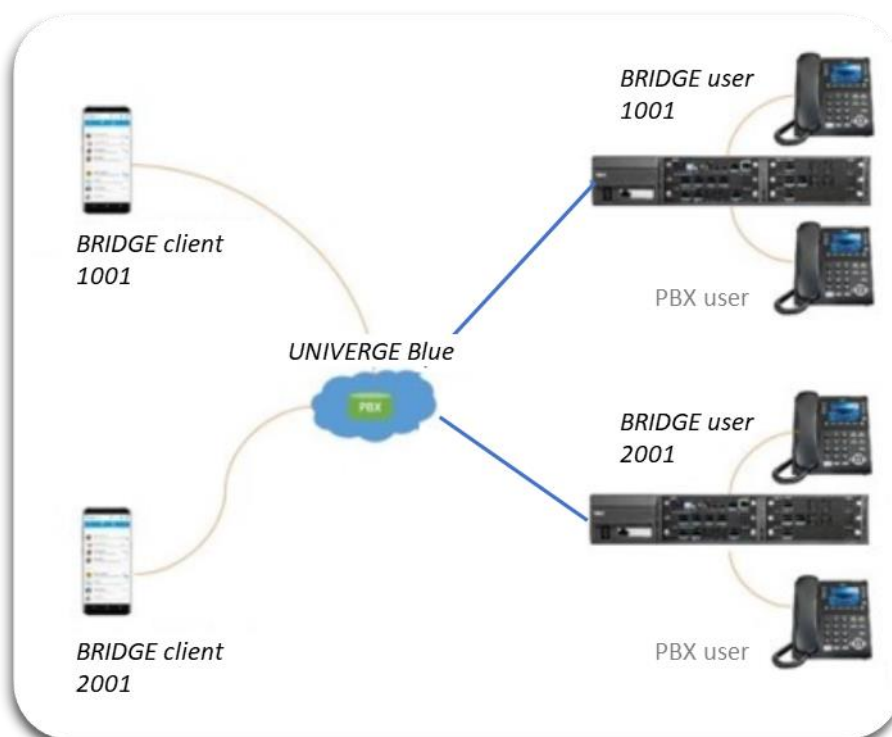

Pricing aspects & Items

The following new items are now supported with SV9100 R13.0 Main Software.

Product code	Items	Description
BE120917	SV9100 VERSION LIC (R13)	R13 Version licence

Pricing can be obtained from your NEC representative/Channel Manager or Prophix CPQ

Documentation

Updated documentation will be available within the UNIVERGE BLUE CONNECT BRIDGE area of BusinessNet and the UNIVERGE BLUE Support Centre Knowledge base.

Training

No additional training is required.

Availability & Order Information

SV9100 R13.0 and SL2100 R5.0 Main Software are available to download now from the Software Database.

Note - UNIVERGE BLUE CONNECT BRIDGE is not available in all regions.

Support & Software Assurance (SWA)

For your existing SV9100 systems with active Software Assurance (SWA) or SV9100 systems which are still in the SWA Grace Period, the R13 version licence can be downloaded and activated at no additional charge in the LMS as part of the NEC SWA Programme.
For customers with SV9100 systems not in the SWA programme, it is possible to (re)join SWA or to purchase the R13 Version licence.
