SL2100 and SV9100 - Price Reduction for IP Extension Licences

NEC are pleased to announce significant price reductions across the range of IP Extension licences for the SL2100 and SV9100 platforms.

Licence Price reductions

It is now the same licence price for any IP device – NEC SIP, NEC Standard SIP or 3rd Party Standard SIP

As well as the GT210 NEC Standard SIP terminal, the NEC Standard SIP licence is also used for several other devices and applications;

- ST500 Smart Mobile Application
- BCT Voice Media Ports
- IPDECT Handsets G277/G577/I766

The NEC SIP Terminal licence is also used for:

- SP310 Softphone

So these will now benefit from these price reductions.

Pricing aspects & Items

The following licences are available, please refer to Prophix CPQ for pricing.
